

Geo @

Othman Laraki - Director of Geo - @othman

Something happened in Austin, Texas.

Twitter is about the triumph of humanity, not the triumph of technology.

Context creates a market for **Globally Applicable but Locally Relevant Information**

Context creates a market for **Globally Applicable but Locally Relevant Information**

Context creates a market for **Globally Applicable but Locally Relevant Information**

Context creates a market for **Globally Applicable but Locally Relevant Information**

---

Geo@Twitter: Create a frictionless way for users to:

- (1) Associate Context with Tweets
- (2) Consume Real-Time Information based on Context
